

His Love

When the storms of life grow strong
And you think you can't hang on
Remember the love
Our Savior has for you.
For He knows us all by name
And he loves us each the same
Through Him we are healed
Our hearts can be made pure.

*If we only knew or could even comprehend
His great love for us, a love that never ends
He brought sight to the blind,
The lame man walked with him
By our faith in His love
We, too, can be whole again.*

Even in the darkest night
Jesus Christ is our true light
Through Him we find hope
And greater peace within
He suffered for our sins
Death was conquered life was giv'n
If we will repent and strive to follow Him

*If we only knew or could even comprehend
His great love for us, a love that never ends
He once said, "Go thy way,
Thy faith hath made thee whole"
And if we trust in Him
His love sanctifies our souls*

If you find your light grows dim
Lift your heart and eyes to Him
Our Savior is there to gently guide you home
For He hears each prayerful cry
And He knows each reason why
He felt every pain and sorrow for each sin.

*If we only knew or could even comprehend
His great love for us, a love that never ends
In the peace that He brings,
We find we can endure
By our faith in His love
The way back to Him is sure.*
