

## **I Feel You There**

Through the crowds and through the dark I hear you call  
And I run to you.  
Through confusion I can strain and find your voice  
I still hear you  
Because I know who you are  
I trust that when I reach you're never far.

### ***Chorus***

*I feel you there; your presence warms my soul.  
I have no doubt I feel you there; in these moments I am whole  
For you make me more than I am  
Giving me the strength to stand  
And though I may stumble in the dark  
You reach forth your love to lead my heart  
I feel you there.*

I feel peace though the world reaches out and calls  
As I run to you.  
'Cause there's safety when I choose to hear your voice  
For it speaks truth.  
Because I trust in your name  
You've changed my heart to never be the same.

### ***Repeat Chorus***

*And though I may stumble in the dark  
You reach forth your love to lead my heart  
I feel you there.*
