

Where Would We Be (Without Family)?

Verse 1

A shelter from the storm,
A place that's safe from harm
With loving arms that reach beyond our cares.
They are there to hold us tight
Through the ups and downs of life;
It's something built, created, always there.

Chorus

*Where would we be without family,
Parents who love and teach and provide?
Every need of the child met beneath one safe roof;
Where peace in each heart can abide.
Where would we be? Where would be without family?*

Verse 2

If the family bond's not there,
We can gather round and share
With those who miss what family should bring
For nobody stands alone
When we open heart and home
And take each hurting child beneath our wing.

Repeat Chorus

The heart of each home will beat steady and strong
When there's kindness and love to be found.
With faith and with trust and in giving our all,
We will find it's a place; it's a place safe and sound.

Repeat Chorus

Where would we be? Where would be without family?
